Flowering Perennials

	<p>Epilobium canum (California Fuchsia) Sun to part shade & low water. This scarlet flowered perennial is great for rock gardens and any dry areas that need an extra pop of color. This is a plant that hummingbirds will often be seen fighting over. Spreads by rhizomes and can be used as a ground cover. After fall dormancy, cut to the ground to make room for spring growth. One Gallon \$9.95 (Wholesale \$4.95)</p>		<p>Achillea millefolium (Yarrow) Sun to part shade & low to moderate water. Yarrow has beautiful flower clusters and delicate lacy leaves. Grows 2-3 ft tall, spreads through rhizomes, and can create a ground cover. Encourage flowering by cutting back old flowers. Attracts a wide range of pollinators. One Gallon \$9.95 (Wholesale \$4.95)</p>
	<p>Physocarpus capitatus (Pacific NineBark) Full to part shade with moderate water, this understory shrub is a member of the Rosaceae (Rose) family. The ball-like cluster of flowers with the unique, lobed leaves makes this species the envy of your neighbors and best friend to local insect pollinators. This species has the added benefit of strong root systems for soil stabilization. One Gallon \$9.95 (Wholesale \$4.95)</p>		<p>Phacelia californica x nemoralis (Phacelia hybrid) Full morning sun to part shade and low water needs; perfect on the edge of oak canopies. This self-seeding perennial is sure to add some pizzazz to your garden with it's one-sided curve of many flowers, which are adored by bumblebees. One Gallon \$9.95 (Wholesale \$4.95) Limited Time Only: Buy one get one free!</p>
	<p>Symphyotrichum chilense (California Aster) Sun to part shade & low to moderate water. A perfect perennial for pollinator and English style gardens. These purple daisy-like flowers will be a hit with your local butterflies and bees. Spreads by rhizomes. Deadhead during the blooming season to produce more flowers. Can be cut back to the ground in winter. One Gallon \$9.95 (Wholesale \$4.95)</p>		<p>Grindelia stricta (Gumplant) Sun to part shade & moderate water. This perennial varies in form, from low clumps to a sprawling subshrub growing up to a height of 4 ft. Bright yellow flowers and buds attract butterflies. Deadheading maintenance helps encourage flower growth. One Gallon \$9.95 (Wholesale \$4.95)</p>
	<p>Rosa californica (California Wildrose) Found in full sun to full shade areas. It is a deciduous thicket-forming shrub which could grow to 7 ft tall by 10 ft wide. The fragrant flowers appear in summer and spring, attracting bees, butterflies, and birds. Annual pruning may be done to thin the shrub. One Gallon \$9.95 (Wholesale \$4.95)</p>		<p>Iris douglasiana (Douglas Iris) Sun to partial shade & occasional to moderate water. Found in sunny coastal prairies to the redwood forest. Has strikingly large flowers that range from blue-ish purple to buttery yellow and attracts a wide range of pollinators. Will form spreading clumps of dark green leaf blades. Prefers heavy soil with organic matter. One Gallon \$11.95 (Wholesale \$6.95)</p>
