CCW Erosion Control Seed Mix

\$120/bag

- 1.5lb bag covers ~ 1,000 sqft ~ Performs over a range of sun/dry to shade/moist.
- Seed mix of *Elymus glaucus*, *Bromus carinatus*, *Hordeum brachyantherum*, *Festuca rubra* 'Molate', *Festuca microstachys*, *Trifolium wildenovii*.
- Keep seeds moist in the ground for 2 weeks, or until germination.
- Plant now with irrigation or reserve and let nature water in the fall!

Rosa Californica (California Rose)

1 DP40 @ \$9.95

- Grows about 6ft tall and 10 ft wide.
- Creates fragrant pink flowers that bloom abundantly during spring and summer.
- Does not need pruning to flower.
- Low water needs.

Vitis californica (California Wild Grape)

1 DP40 @ \$9.95

- Vining plant, will grow up to 30 feet long!
- Partial shade to full sun, will spread to reach sun.
- Fast grower.
- Moderate to low water.
- Produces small edible grapes in the fall.

CENTRAL COAST WILDS - SEPTEMBER 2024 HIGHLIGHTS

Euthamia occidentalis (Western Goldenrod)

1 TB5 @ \$4.95

- Full sun to partial shade.
- 4 to 6 feet tall, spreads via rhizomes.
- Can be used as erosion control and bank stabilization.
- Lives well in moist soil, such as by rivers or marshes.

Phacelia californica (Rock Phacelia)

1 TB5 @ \$4.95

- 1 to 3 feet tall at maturity.
- Produces white to purple flowers during spring and summer.
- Fast growing.
- Grows best in full sun to partial shade.
- Attracts a butterfly endemic to Santa Cruz.

Arctostaphylos pilosula (La Panza Manzanita)

1 Gallon @ \$24.95

- Sun to partial shade & low water needs.
- Grows 3-6 ft tall and 3-6 ft wide.
- Spreading ground cover.
- Tolerant of poor soils.
- Creates small pink flowers that attract hummingbirds.
