

CENTRAL COAST WILDS

Bulb Extravaganza!

336 A Golf Club Drive
Santa Cruz, CA 95060

Please contact sales@centralcoastwilds.com to confirm availability.

Our recent rains have finally encouraged our bulbs to wake up and rise out of their winter dormancy. We love seeing their first leaves pop out of the soil, and we eagerly await their glorious display of blooms!

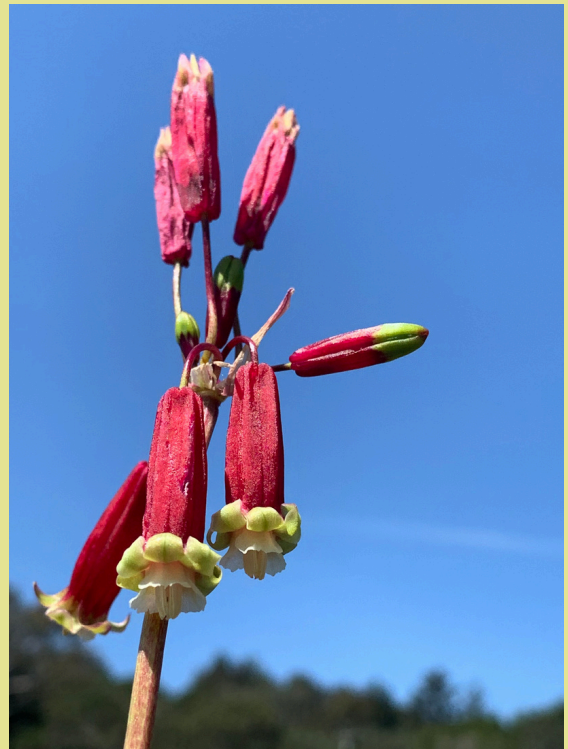

Tritelia ixioides
(prettyface)

D16 @ 11.95, DP40 @ \$24.95

- It's no surprise how this plant got its name - their cheery and delicate yellow flowers are a delight to see come Spring.
- A lovely addition to a meadow or lawn (or a container!) *Tritelia ixioides* will do well in full sun or partial shade- make sure it gets enough water before it goes dormant in the summer.

Dichelostemma ida-maia
(firecracker flower)
1G @ \$24.95

- Perhaps the most eye-catching flower in the whole nursery, these *Dichelostemma* are sure to make people stop and stare during their brief bloom period.
- *Dichelostemma* are an easy and low maintenance plant, and will either be dormant or blend in with the grass for most of the year before shooting out their stunning flower display!

Chlorogalum pomeridianum (soap plant)

LT8 @ 9.95, TP4 @ \$29.95

- Adored for both its wavy foliage and delicate, fragrant flowers, *Chlorogalum pomeridianum* is one of the lowest maintenance bulbs you can grow, needing virtually no care once established.
- Plant these bulbs in a sunnier spot and look out for the flowers in the evening—they only open when the sun goes down and are pollinated by insects in the night!

Sisyrinchium bellum (blue-eyed grass)

TB5 @ \$8.95, 1G @15.95

- An absolute classic for any native plant garden, *Sisyrinchium bellum* will be happiest in sunny, open areas with a moderate amount of moisture.
- These plants are low growing and spread over time— they will also seed themselves readily!
- If you don't have access to a garden, these make an excellent candidate for container planting.
